ARTICLE K. RURAL UNIMPROVED SUBDIVISIONS

9-21K-1: INTENT:

9-21K-2: RURAL UNIMPROVED SUBDIVISION APPLICATION:

9-21K-3: APPROVAL:

9-21K-1: INTENT:

Kane County desires to create a simplified, less restrictive process for the dividing of land located within the unincorporated areas of Kane County when the project is small and the main purpose and general intent of the division is not property development. This simplified process does not require all of the same improvements and regulations that are required under this chapter when applying for the division of land and approval of a subdivision plat. Under Utah state code and Kane County ordinance almost any division of land is defined as a subdivision even though the common and ordinary use of the word subdivision refers to denser residential areas that include roads, utilities, and other improvements. (Ord. 2014-18, 9-22-2014)

Furthermore, for decades many individuals have subdivided their property without first complying with state law and county ordinance in effect at the time of the illegal subdivision. Many individuals may desire to use this article to bring their land into compliance. If an applicant under this article otherwise complies with the requirements of this article, they may obtain approval for a rural unimproved subdivision if, and only if, the application includes all portions of the original land (sometimes referred to as parent parcel) as it legally existed prior to being subdivided illegally, and the application is joined by all of the current property owners. (Ord. 2013-10, 11-4-2013, eff. 11-19-2013)

9-21K-2: RURAL UNIMPROVED SUBDIVISION APPLICATION:

Notwithstanding articles A through J of this chapter, the land use authority may approve an application for a rural unimproved subdivision, if the following criteria and requirements are met:

A. The applicant shall complete, sign, and submit an official application together with any other required documentation, the form of the application having been prepared by the land use administrator, and pay the associated fee.

B. The proposed subdivision:

1. Has a name that is distinct from all other recorded subdivisions in the county recorder's office; (Ord. 2013-10, 11-4-2013, eff. 11-19-2013)
2. Is for ten (10) lots or less, all of which are at least ten (10) acres as a conforming aliquot parts parcel or less than ten (10) acres, but not less than 9.5 acres if necessary to compensate for the curvature of the earth or the convergence of township lines as recognized in the public land survey system, or because of previous survey errors; (Ord. 2013-11, 11-25-2013, eff. 12-10-2013)
3. Is not traversed by the mapped lines of a proposed street as shown in the general plan and does not require the dedication of any land for street or other public purposes;
4. Has been approved by the culinary water authority and the sanitary sewer authority, if a culinary water system or sewer system is included in the plans of the subdivision (Note: Under Kane County

ordinance and Utah state code a building permit will not be issued for lots that do not first contain an approved culinary water and sewer system.);

5. Is located in a zoned area; (Ord. 2013-10, 11-4-2013, eff. 11-19-2013)
6. Conforms to all applicable land use ordinances or has properly received a variance from requirements of an otherwise conflicting and applicable land use ordinance;
7. Is graphically illustrated on a record of survey map completed by a licensed surveyor who certifies that he or she is a licensed surveyor and has verified all measurements and placed monuments as represented on the map. The record of survey map must be signed by the applicant and the surveyor, and shall contain the following notes on the record of survey:
 - a. Roads are not constructed or maintained by Kane County or any local government entities and are the responsibility of the owner(s) or developers;
 - b. No utilities (e.g., power, water, sewer, phones) are provided by Kane County. Kane County does not bear the responsibility now or in the future for any improvements. Improvements are the responsibility of the owner or developer;
 - c. If and when the developer/landowner has met county standards and specifications for infrastructure and they have been formally accepted by the county these notations should be removed from the plat;
 - d. County acceptance of infrastructure does not infer that the county will upgrade that accepted infrastructure beyond the standard of its acceptance;
8. Provides each newly created lot with: a) a vesting of the utility and access easements and other rights of access that the parent parcel holds at the time of the subdivision application; b) a sixty six foot (66') wide recorded access and utility easement across the parent parcel that is necessary to connect the new parcel to any public right of way to which the parent parcel has access; and c) a recorded utility easement across the parent parcel necessary to allow each newly created lot access to the same utilities currently available to the parent parcel or planned, at the time of the proposed subdivision, to be available to the parent parcel in the future; and (Ord. 2014-18, 9-22-2014)
9. Has a name for each existing and newly created access road or easement distinct from other road or easement names located in Kane County for address purposes, designated on the record of survey.
 - C. The applicant shall submit an agreement of understanding with the Kane County commission that in unincorporated areas of the county, dedicated roads will not be accepted, paved or maintained by the county, until the subdivision complies with articles A through J of this chapter.
 - D. The proposed subdivision does not include land previously divided under this article.
 - E. If the applicant so desires a plat may be submitted instead of the record of survey map. The form of the plat must conform with all the requirements of this chapter.
 - F. The application is signed and submitted by each and every property owner of the land included in the application.

G. If any land contained in the application is the result of land that was previously divided without first complying with state law and county ordinances, the application must include all of the lots or parcels that together represent the entire original parent parcel before it was subdivided illegally.

H. If the proposed subdivision contains agricultural land that qualifies as land in agricultural use as defined by Utah state code section 59-2-502 (FAA) the applicant must also submit:

1. A signed statement that the land is not used and will not be used for any nonagricultural purpose;
2. A signed notice that the county may require the parcel to comply with articles A through J of this chapter if it is later used for a nonagricultural purpose. (Ord. 2013-10, 11-4-2013, eff. 11-19-2013)

9-21K-3: APPROVAL:

A. If an applicant meets the requirements of section 9-21K-2 of this article the land use authority after hearing the application in a public meeting shall recommend approval of the application to the county commission or deny the application.

B. If recommended for approval the application shall be forwarded to the county commission for final approval.

C. Upon final approval of the county commission, the appropriate official of the county commission and the land use authority shall sign the plat or issue a letter of written approval in the case of a record of survey.

D. A platted unimproved subdivision with a recorded approved plat or a letter of written approval recorded with a record of survey shall be considered in compliance with this chapter as of the date of recording.

E. A building permit shall not be denied on the basis that a lot or parcel is part of a platted unimproved subdivision, approved under this article.

F. A lot or parcel approved under this article shall not be restricted from being sold or offered for sale under sections 9-21A-6 and 9-21B-4 of this chapter.

G. A plat may not be recorded without all the appropriate signatures and a record of survey map may not be recorded without the letter of written approval. (Ord. 2013-10, 11-4-2013, eff. 11-19-2013)

ARTICLE L. MINOR SUBDIVISIONS

9-21L-2: UTAH STATE CODE SECTION 17-27A-605(4):

9-21L-1: MINOR SUBDIVISION EXEMPTION:

Kane County adopts Utah state code section 17-27a-605(4). A subdivision of land that qualifies as a minor subdivision under section 4 does not have to meet the requirements of articles A through J of this chapter. An applicant that desires to create a minor subdivision lot must file application with the Kane County land use authority certifying that the requirements of Utah state code section 17-27a-605(4) have been completed. If the applicant meets all the requirements of said subsection, the land use authority administrator will approve the subdivision after an administrative review.
